

Nocturne

Now, let the day
Just slip away
So the dark night may watch over you
Velvet, blue
Silent, true
It embraces your heart and your soul
Nocturne

Never cry - never sigh
You don't have to wonder why
Always be - always see
Come and dream the night with me
Nocturne

Have no fear
When the night draws near
And fills you with dreams and desire
Like a child asleep
So warm, so deep
You will find me there waiting for you
Nocturne

We will fly - claim the sky
We don't have to wonder why
Always be - always see
Come and dream the night with me
Nocturne

Though darkness lay
It will give way
When the dark night delivers the day
Nocturne
